

How to upload a video in Studio

Fact sheet

What is Studio?

Studio is a communication tool that allows instructors and students to actively collaborate through video and audio media.

Why should I upload a video into Studio?

Studio offers a great captioning tool which makes creating accessibility-friendly videos for use within your Canvas course. Using Studio means you can access this tool. A guide for how to use this tool is also available here.

How to upload your video into Studio.

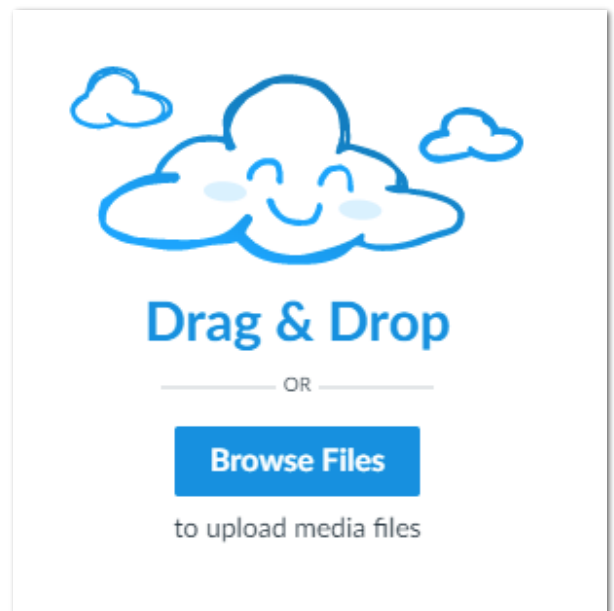

- 1) Go to Canvas
- 2) Select the Studio icon on the left navigation

- 3) Click on the "Add" button on the upper-right corner.

- 4) Click the "Browse Files" button on the pop-up.

- 5) Locate your video file and press "open"
- 6) Your video should now appear in Studio
