

Education for Today & Tomorrow

2022 COBL Hybrid Learning and Teaching Conference

Digital Innovation – Social Impact – Lifelong Lifewide Learning

Thursday, Dec 1st, 2022

Conference Theme

Join us for the inaugural COBL Learning and Teaching Conference: “Education for Today & Tomorrow” which focuses on 3 interrelated themes- What does business/law education look like in the now and in the future in terms of **(1) digital innovation;** **(2) social impact** and what do our CoBL learners and teachers need now and, in the future, to create a culture of **(3) lifelong and life-wide learning.**

This conference brings together academic and professional staff involved in learning, teaching, and assessment to share scholarly and evidence-based approaches that contribute to developing future-focused educational experiences. You will take away practical and collaborative information about strategically aligned L&T foci that can be used as a catalyst for personal and professional development.

Conference Registration

- The Conference will be conducted face-to-face in Melbourne, with an optional live stream (via Teams) for those who can't be physically present. To allow us to arrange adequate catering, please register as early as possible indicating whether you will be attending on campus, or online.
- The Conference will consist of three plenary sessions in the form of keynotes, interspersed with panel discussions and shorter parallel sessions covering Digital Innovation, Social Impact, and Lifelong/Life wide Learners.
- You can also sign up for a post-conference workshop, tailored to the needs of CoBL educators, with either Adobe and/or Cadmus (see links at the end of this program).
